

GBS Org IT Information System

Added by [Ravichandran Nagarajan](#), last edited by [Ravichandran Nagarajan](#) on Oct 07, 2014

Overview

GBS Org IT Information System will give you information about our IT Infrastructure. There are quite a big amount of changes with respect to the migration of weblogic from 11g to 12c. This space will provide you technical insight of the changes from the point of view of Infrastructure, Build, Distribution, Configuration and Deployment.

Technical Insight

- [Infrastructure changes from 11g to 12c](#)
- [Configuration changes required in H2O applications](#)
- [Possible Memory Leak situation\(s\) in 12c and configuration fix required in EAR application](#)
- [Evolution of H2oBase](#)
- [GuideLines H2o Build 2.0](#)
- [GuideLines EAR Build](#)
